

Green Power Program!

Helping the environment with the new Green Power Rate

Since 1998, Empire Electric Association, Inc. has offered you the opportunity to support the continued development of renewable energy resources through the **Green Power Program**. For a minimal additional monthly charge, you can purchase green power to supply a portion of the electricity you use. Through our partnership with Tri-State Generation & Transmission Association, we're harnessing the wind and developing other renewable technologies to deliver green power to you-adding to the existing mix of reliable and affordable electricity produced at hydropower and coal-based facilities.

Buy now at the reduced rate of just 9¢ per kWh!

Guidelines for Green Power Rates

Available - to all Empire Electric members in 100 kWh per month blocks sold in as little as 10% to 200% maximum.

Eligible - any Empire Electric consumer who completes and returns to Empire Electric "Intent to Purchase Renewable Generated Power Application." This form will indicate the number of 100 kWh blocks (or percentage) the member intends to purchase monthly.

Rate - The rate will be a renewable power premium (added charge) for all renewable power delivered to the member participant as committed in the "Intent to Purchase Application." The renewable rate is 9 cents purchased in 100 kWh per month blocks. This is in addition to the present rate applicable to the member. This charge is also subject to "adjustments." (see "adjustment" definition below.)

Duration - This rate is now available.

Adjustments - In the event the power supplier, Tri-State Generation & Transmission Association charges Empire Electric for additional costs due to the character or conditions of service, such charge or charges shall be passed on to the purchasing member in the same exact amount.

Empire Electric Association, Inc.
